Artificial Superintelligence Alliance

ONLINE HACKATHON · OCT 2026

DEVELOPERS · ARTISTS · MUSICIANS · TEAMS OF 1–4

MeTTa & OMEGA

State of the Art Hackathon

THIS ROUND

$560

Build it. Ship it. Pitch it.

SUBMISSIONS CLOSE

20 Oct

BUILD, ONLINE

18–21 Oct

Go to Hackathon
basix.market

Free to enter · solo or teams of 1–4 · certificate for every participant

Build it together. *Own it together.*

Developers, artists, musicians and builders team up across four tracks and ship digital IP — not demos that vanish.

01 TEAMS

Solo or team

Solo or teams of 1–4, one track per entry. Register on BASIX.MARKET with an institution or as “Independent.”

02 JOB BOARD

Find your team

On your own? Find team members on the BASIX job board.

03 UNIVERSITIES

Kenyatta & Zetech

Students from Kenyatta University and Zetech University; Cohort 2 builders welcome.

04 AFTER THE ROUND

Separate agreement

Participation alone transfers no ownership — rights are agreed separately, with consent.

— THE ROUND · FROM SIGN-UP TO INCUBATION

Online · Help Desk · BASIX.MARKET accounts

REGISTER	TEAM UP	PICK A TRACK	BUILD	SUBMIT	JUDGE	
by 16 Oct · basix.market	on the job board	locked on Day 1	18–21 Oct	Oct 20, 17:59 EAT	winner details to registered participants	incubated on contract with BASIX.MARKET

PRIZE POOL

Our $1,000 prize fund is allocated across this and the next hackathon. This round awards $560: first $170, second $140, third $110, fourth $70 and fifth $70. The remaining $440 is reserved for the next hackathon.

JUDGING

Execution 30% · Demo 25% · Fit to track 25% · Collaboration & docs 20%

SUPPORT

Live Help Desk · MeTTa resources

FORMAT

Online, free to enter, times in EAT · a certificate for every participant

Ten rules. *One shared stake.*

01 Solo or team

Enter solo or in a team of 1–4. Each entry selects one track.

02 Register properly

Every member has a BASIX.MARKET profile, with an institution or “Independent.”

03 Disclose your AI use

Which tools, for what. Using AI is allowed; hiding it is not.

04 Show the work

Builders submit a working GitHub repository with access for BASIX reviewers. Creators submit the finished piece.

05 Use data with permission

Incantio, AI for Peace, HFAS or Harlem CLxR samples only with the rights holder’s consent.

06 Respect other people’s work

Identify prior work and reused material, and credit it. Open source keeps its licence.

07 Filming needs consent

Asked before filming — and again before footage is published.

08 Meet the deadline

Submissions close October 20, 17:59 EAT / 15:59 Lisbon. Late entries are not judged.

09 Be decent

Harassment, discrimination or misuse of others’ work ends an entry.

10 Ownership

Participation alone transfers no ownership. Incubation, ownership shares and commercial rights are agreed separately, with every rights holder’s consent.

Organisers can disqualify an entry that breaks these rules · the organisers’ decision on scores and winners is final

Four tracks. *One platform to build.*

Pick one. Every track ships real IP . Incubation and integration are assessed separately and require agreement.

01 — CREATORS

Harlem Fine Art & AI for Peace

Painters, digital artists, musicians and performers — after the HFAS 2026 theme.

HFAS · Harlem CLxR · Incantio

02 — BUILDERS

MeTTa Omega

A challenge menu from MeTTa Foundation (Level 1) to the AI Infrastructure Layer.

Every challenge has an art brief

03 — OPEN

Hack Ready Projects

For builders who bring a project ready to keep expanding upon.

Extend an existing project — judges score only the new work.

04 — BASIX.MARKET

BASIX.MARKET builds

A · The Job Board. B · Managing originals — Art IP & Music IP.

— EVERY TRACK · SAME RULES

Judged on the same criteria

TEAM

1–4 members, one track

BUILD

A working repo — or a finished piece for creators

SHOW

A 3-minute video: what it does, what's next

DISCLOSE

Short docs with AI disclosure

What MeTTa & Omega can do for culture.

01 — Music licensing

WITH incantio

Rights as rules

Splits, territories and sync terms in MeTTa — yes or no, with the clause trail.

The living split sheet

An agent in the session remembers who wrote what and proposes fair splits.

One-click sync

Challenge concept: each track may carry its own licence link, via Incantio.

02 — Music business

WITH incantio

Royalty reconciliation

Platform and label statements disagree — agents find the missing money.

Deal explainer

A contract read back in plain language — or Swahili — risky clauses flagged.

Splits you can watch

Challenge concept: co-writer shares recorded where the partner supports them.

03 — Art provenance

Provenance as reasoning

Ownership history as a graph — gaps marked, conflicts reconciled.

Glass-box attribution

“Why we believe this is by X” — every step open to challenge.

Resale royalties

Challenge concept: resale royalties where agreed.

04 — Archives

The archive that grows up

Learns a body of work — 18 seasons of HFAS — and remembers corrections.

Oral-history layer

Stories from Harlem and Nairobi linked to the works, under consent rules.

Footage rights

Who appears, who consented, where it may run.

05 — Exhibitions

Curatorial co-pilot

Themes, hangs and wall texts — each with its reasoning shown.

Guide with memory

A gallery guide that remembers every visitor, in their language.

Rights checker

Loans, insurance and image rights cleared before opening.

AFTER THE HFAS 2026 THEME

Harlem Fine Art *& AI for Peace.*

Art as Healing. History as Power. Legacy in Motion.

For painters, illustrators, digital artists, musicians, producers and performers making work with AI for peace — after the Harlem Fine Arts Show 2026 theme.

THE CHALLENGE — CHOOSE ONE

01	AI as creative partner	Make a work with AI as co-creator — show the conversation.
02	Legacy in motion	A work, song or performance that evolves with its audience.
03	The borderless studio	Two artists, Harlem ↔ Nairobi, one piece in real time.
04	Peace, love, unity	A piece in the spirit of the AI for Peace collection.
05	Co-own your work	A phigital piece with on-chain provenance with royalty terms agreed in advance.

DELIVERABLE Finished piece + 3-min process video + artist statement with AI disclosure.

Challenge concept: musicians may license finished tracks through Incantio, subject to partner confirmation

Harlem Fine Arts Show · virtual gallery

incantio

Make it *sound* like peace.

Musicians make the work; Incantio takes it to market. Challenge concept, subject to partner confirmation and rights-holder permission. Finished tracks may be listed on incantio.com.

01 License-ready from day one

Finish a track with stems, metadata and split sheet — may be ready to list on Incantio.

02 The split sheet in the session

Co-write live; an agent records who wrote what, and splits may be recorded, subject to partner confirmation and rights-holder permission.

03 A sync-ready score

Score the AI for Peace artworks — one cue per image, each potentially licensable via Incantio, subject to partner confirmation.

04 A song across borders

A Harlem ↔ Nairobi co-write with co-writer splits may be recorded, subject to partner confirmation and rights-holder permission.

LIST IT *Challenge concept: listing on incantio.com, subject to partner confirmation and rights-holder permission*

Artwork: Sonnia Mpeki Suli — AI for Peace

What peace *looks like.*

Made by young artists with AI. This is the bar — and the invitation.

AI FOR PEACE

Choose *one challenge.*

Partner creative briefs are challenge concepts pending partner sign-off.

LEVEL 1	LEVELS 1–3	ADVANCED	ADVANCED
MeTTa Foundation	*Omega AI Agents*	*Next Level Devs*	*AI Infrastructure*

METTA FOUNDATION · LEVEL 1

01 The Glass Box Agent

Every decision comes with a reasoning trail anyone can challenge.

HFAS BRIEF *A jury assistant that shows why an artwork was selected.*

02 The Agent That Grows Up

Starts with a small rule set and visibly learns — show the diff.

INCANTIO · MUSIC BRIEF *A composing agent that learns a style and writes the split sheet.*

03 MeTTa Core Challenge

One small feature: patterns, knowledge, inference or rule learning.

AI FOR PEACE BRIEF *A knowledge graph of the AI for Peace artworks and artists.*

OMEGA AI AGENTS · LEVELS 1–3

01 Two Agents, One Truth

Two agents disagree about a fact and reason to a shared answer.

AI FOR PEACE BRIEF *Two communities' accounts of one event, mediated to one story.*

02 The Agent Without Borders

Reasoning that holds across languages, literacy and connectivity.

HARLEM CLXR BRIEF *Carry artist statements between Harlem and Nairobi.*

03 BASIX.MARKET — Mature Build

A working module for the BASIX NFT Marketplace.

AI FOR PEACE BRIEF *Phigital editions of AI for Peace works, royalty terms to be agreed with artists.*

— BUILD FOR AN ARTIST

Collaborating teams submit separate entries, each in one track, and are judged independently.

Choose *one challenge.*

Advanced — and still built for artists, musicians and peace.

LEVEL 1	LEVELS 1–3	ADVANCED	ADVANCED
MeTTa Foundation	*Omega AI Agents*	*Next Level Devs*	*AI Infrastructure*

NEXT LEVEL DEVS · ADVANCED

01 Trusted With Money

A business decision with an audit trail a manager could override.

HFAS BRIEF *Challenge concept: approve fractional-ownership and royalty payouts for #BuyBlackArt.*

02 The NPC That Won't Break Character

A character with real memory. Maintains consistent character and memory across documented tests.

INCANTIO · MUSIC BRIEF *A band-mate who remembers every co-write and who is owed what.*

AI INFRASTRUCTURE LAYER · ADVANCED

01 Build the AI Infrastructure Layer

Live MVP work on GitHub with Omega — scale support, CTO agent or RWA.

HARLEM CLXR BRIEF *Cultural-IP and real-world-asset rails for Harlem ↔ Nairobi.*

— WHO IT'S FOR

Teams with prior hackathon or Sprint experience, or a completed MeTTa track / BASIX.MARKET coursework.

STACK

MeTTa, Hyperon and Omega — resources on BASIX.MARKET.

DELIVER

Working repo shared with BASIX.MARKET, docs and a 3-min video.

MENTORS

SingularityNET developers (schedule to be confirmed).

JUDGED

30 · 25 · 25 · 20

Scored on execution, demo clarity, fit to track, and collaboration and documentation.

OPEN TRACK

Hack Ready *Projects.*

Extend an existing project. Identify the starting version and document the work completed during this hackathon. Judges assess the new contribution.

WHAT WE KNOW SO FAR

01 Builders with a project ready to keep expanding

02 Starting version identified and new work documented

03 Same judging criteria as the other tracks.

GET READY NOW Register on BASIX.MARKET, post your project on the job board to find teammates, and have your repo ready.

Desdemona · SUPERAI Singapore

BRIEF A

The *Job Board.*

Build the board that builds the teams. The BASIX job board is where artists, musicians and builders find each other — and where teams find briefs.

THE CHALLENGE — CHOOSE ONE

01	Team-matching agent	Matches a brief to builders by verified skills — explains every match.
02	Skills that prove themselves	Reads MeTTa | OMEGA badges (I–III) and gates briefs by level.
03	The brief writer	Turns an artist's idea into a scoped brief: budget, level, timeline.
04	Reputation with memory	An Omega agent that remembers who delivered.

Challenge concept: features may be integrated into BASIX.MARKET, where agreed.

Deliverable: working feature on a GitHub shared with BASIX.MARKET + 3-min video

Artwork: Irene Wambui Ngugi — AI for Peace

On the record.

The original never moves — proof, permissions and income travel, and every rights holder is on the record. Build ONE stage.

01 REGISTER

Hash the work or its photos and register provenance with permission — even if the artist opts out of sales.

02 PROVE

A MeTTa graph of who made it, when, with whom and which AI tools — gaps flagged.

03 LICENSE

Who may use it, where and for how long — with the clause trail. AI-training opt-in only.

04 EARN

One split sheet for every co-writer, signed in the session; royalties only where agreed.

05 PROTECT

An Omega agent remembers every licence and flags any use never cleared.

ART IP

- The physical original stays with the artist or gallery — on record.
- A phigital twin is minted and linked to the object, never replacing it.
- Image rights licensed separately; a resale royalty on every transfer, where agreed.

MUSIC IP

LICENSED VIA incantio

- Master and composition tracked apart — two rights, two records.
- Stems in a private vault; split sheet signed in the session.
- Challenge concept: sync licences via Incantio, subject to partner confirmation and rights holder permission.

— OWNERSHIP PRINCIPLES

Test on AI for Peace · HFAS archive · Harlem CLxR session · Incantio catalogue

OPT-IN ONLY
Nothing is used or trained on without consent

PARTIES ON RECORD
Builders, BASIX.MARKET and GTM brokers — each named

PROVENANCE FOR ALL
Registration needs permission — even when an artist declines sales.

SPLITS FIRST
Agreed before anything is built

Deliverable: a working module on a GitHub shared with BASIX.MARKET + 3-min video · incubation terms set out separately

Built to win.

$170	$140	$110	$70	$560
1ST PLACE	2ND PLACE	3RD PLACE	FOURTH & FIFTH · EACH	THIS ROUND AWARDS

— JUDGING · ALL TRACKS

Incubation suitability is assessed separately as a follow-on step, not as an additional score.

30%	25%	25%	20%
Execution	Demo/video clarity	Fit to track	Collaboration and documentation

REPO OR PIECE

Builders submit a working GitHub repository with access for BASIX reviewers. Creators submit the finished piece.

3-MIN VIDEO

Show it working and say what you'd build next.

DOCUMENTATION

Short docs, AI-use disclosure and a 3-minute demo or process video.

ON TIME · REGISTERED

Submit by Oct 20, 17:59 EAT; BASIX.MARKET profile with an institution or "Independent."

JOB PORTAL

BASIX.MARKET job board for finding teammates.

INTERNSHIP

To be confirmed.

CERTIFICATE

Every participant receives a certificate.

OWNERSHIP

Participation alone transfers no ownership — rights are agreed separately, with consent.

Submissions close October 20, 17:59 EAT / 15:59 Lisbon.

Good *questions.*

Q Does it cost anything?

No — it is free to enter.

Q Can I hack solo?

Yes. Enter solo or in a team of 1–4, one track per entry. Find teammates on the BASIX job board.

Q Not a coder — can artists and musicians enter?

Yes — Track 01 is for you. You can also team up with a builder through the job board.

Q Can I enter more than one track?

No. Each team enters one track.

Q I took part in the last BASIX hackathon. Can I join?

Yes — builders from the BASIX Omniversity Hackathon and Cohort 2 who have built something can join.

Q What does “incubate” mean?

A follow-on step: strong entries may be offered incubation. Participation alone transfers no ownership.

Q Which tools will builders use?

MeTTa, Hyperon and Omega, plus any outside AI tools — disclosed on BASIX.MARKET, where the resources are.

Q Where do I submit?

On BASIX.MARKET. Submissions close October 20, 17:59 EAT / 15:59 Lisbon.

Q When is the hackathon?

Online, October 18–21, 2026 (EAT). Winner-announcement details will be sent to registered participants.

Q Do I get a certificate?

Yes — every participant receives a certificate.

More questions? Email office@basix.market — or use the live Help Desk on BASIX.MARKET during the hackathon
